

Easy Embroidery On Paper—Father Christmas

Prick the pattern into the card. Embroider the green of the eyes with stem stitch 1-3. Use a stitch length of 1-3 or 1-4 for the curls of the beard. Work the rest in long stem stitch 1-5. For the pompom on the hood, use circle stitch with a stitch length of 1-9 or 1-11. Fill in the thin ends with short stitches.

The Sulky threads used are: Silver 7001 Pink 7012 Red 7014

Tiny gemstones are stuck on the hood and in the corners. You could also use small beads or golden dots left over from sheets of stickers.

You can ink in the eyes and other black details on the card. When you prick the pattern, prick two holes for each eye. Draw the eyes and any other black details before you begin the embroidery and let them dry properly, because all types of ink can leave spots on your work.

The diagrams and instructions for the stitches can be found in the book!
